**A World of Applications and Innovation
In Epoxy Curing Technology**

Welcome to Epoxy Chemicals

Thanks for your interest in our company and our products.

We are proud to introduce you to Epoxy Chemicals, Inc. We specialize in the research and development of curing agents for epoxy formulated products. These products are used in a variety of construction, flooring and composite industries. Our focus is on specialty hardeners based on cycloaliphatic amine and aliphatic amine chemistry.

Epoxy Chemicals, Inc. (ECI) was founded in 2004. We saw a need in the industry to provide innovation in existing product offerings and custom formula development for customers that need something just a little different. We can provide you accepted and existing technology, and we can also work with your needs to provide custom products to suit your specific needs. Also, if you find that you would rather have someone else do your manufacturing for you, we can prepare anything from custom products in cartridges, to 5 gallons pails, and all the way to bulk if that's what you need.

Epoxy Chemicals, Inc. is committed to assist in the design or formulation of custom products that are cost effective with optimal performance..

With the recent pressures of specialty hardeners for your needs please consider Epoxy Chemicals, Inc. as a potential supplier for your needs.

Finished Products — Private Label Epoxies

Products currently available

- Hardened Concrete to Hardened Concrete Epoxy Adhesive
- Plastic Concrete to Hardened Concrete Bonding Agent
- Epoxy Control Joint Filler
- Epoxy Flooring Binder
- NSF-compliant High Build Coating
- Ultra Low Viscosity Concrete Sealer
- Injection Resins
- Low Modulus Epoxy Systems

Custom Formulating

- Facing a unique application?
- Short on manpower?
- Limited chemical expertise?

Let our staff provide innovative technology for your evolving needs. Epoxy Chemicals, Inc. has wide ranging experience and can offer insight into the requirements of an epoxy product for a specific application. We will work with you to provide a long term solution that suits your needs.
